...time of trial she visited it at least once a month and, until the driveway was closed, she used it exclusively to access her property.

The court granted plaintiffs' motion to dismiss defendants' counterclaim alleging slander of title. It denied the defendants' motions for directed verdict, made at the close of plaintiffs' evidence, and for judgment notwithstanding the verdict, made after the jury found that plaintiffs had established an **easement by prescription**. From judgment entered on the verdict, defendants appeal.

We turn now to defendants' two assignments of error which are (1) whether the trial judge, pursuant to N.C. Gen. Stat. § 1A-1, Rules 50(a) & (b) (1990), properly denied the defendants' motions for directed verdict and for judgment notwithstanding the verdict and (2) whether he properly allowed the plaintiffs' motion to dismiss defendants' counterclaim. We hold that plaintiffs' evidence tending to establish a prescriptive easement was sufficient to survive defendants' motions and that the trial court properly dismissed defendants' counterclaim.

Defendants are entitled to a directed verdict and, thus, a judgment notwithstanding the verdict only if the evidence, when considered in the light most favorable to the plaintiffs, fails to show the existence of each element required to establish an **easement by prescription**. *Potts v. Burnette*, 201 N.C. 663, 665, 273 S.E.2d 285, 287 (1981). When determining whether the evidence is sufficient to go to the jury, plaintiffs are entitled to the benefit of every reasonable inference which may be legitimately drawn from the evidence, and all evidentiary conflicts must be resolved in favor of the plaintiffs. *Id.*
